

My wife and I have two girls in elementary school. With all the things going on in this world we really search for things that can be a good influence in their lives. KLOVE is one of the few things that we have found the girls can listen to without us listening over their shoulders. With all the things that we as well as the FCC consider to be not worthy of young children on TV we turn to radio a lot. Thank you for all you have done for young eyes in the past few years and please keep these same young people in mind in this decision.
